Volume 35, Number 1

Spring '89

## Laser Hits 89 PSC

Promoting itself as Laser Hits 89 PSC, the campus radio station hit the airwaves on December 12, 1988. Broadcasting at 200 watts, WPC can be heard within a 20 mile radius of the campus at 88.7 FM.

The transition from college club to on-the-air station took years of planning. When the FCC approved WPC's application for an FM license in June

1987, the dream almost became reality. With the construction of a new studio and transmitter last December, WPC joined the world of professional radio.

WPC-FM can be heard from 8 a.m. to 1 a.m. on weekdays, 12 noon to 1 a.m. on Saturdays, and 12 noon to 12 midnight on Sundays.
